
SFP 100Base-FX Multimode, 2KM

DESCRIPTION

Lightwin High Quality Multimode SFP with lifetime guarantee and important advantages compared to alternative no name modules. Lightwin SFPs have a special chip installed and, in combination with the specially selected light source, impress with their significantly longer service life. All Lightwin SFP models support DDM technology and have an extended temperature range for industrial grade applications.

FEATURES

- Transmission: Multimode
- Data rate: 155Mb/s
- Wavelength:
- TX: 850nm
- Distance: 2km
- Connector: LC
- High Quality modules
- Industrial Grade
- 100% tested

SFP 100Base-FX Multimode, 2KM

PRODUCT FEATURES

Connector	LC
Coding	CISCO / HP
Data Rate	155 Mb/s
Distance	2 km
Product Family	100MBit SFP
RX Wavelength	850 - 1310 nm
TX Wavelength	850 nm
Transmission	Multimode
